

MOBILE CCTV SOLUTIONS

Deliver surveillance to any location with the Mobi Pole Cam

Our remote-view-enabled, standalone solar surveillance solutions are perfect in areas without network/power infrastructure. This can include trouble spot monitoring, in almost any area.

Uses include permanent sites such as parks, farms, streets etc and temporary sites like events or rubbish dumping areas.

Models feature a 6.0MP fixed ip camera with IR for great night vision or 4.0MP mini IP PTZ dome with IR, offering a versatile surveillance solution with 4 x lossless optical zoom, pan-tilt-zoom control, and exclusive to Mobile CCTV Solutions cloud based recording.

Watch live or playback from the cloud on any device 24/7, cloud storage options available from 7 day up to 30 day storage.

The solar panel unit features a 40W LED area light with microwave motion detection, which can be customised to your specifications. The entire system is powered by a rechargeable 41.6Ah Lithium Iron Phosphate (LiFePo 4) battery.

This model includes a high speed 3G/4G modem router for remote view anywhere*.

-  **Efficient 75W monocrystalline silicon solar panel**
-  **National coverage* remote view using 3G/4G modem**
-  **Lasts up to 2 days from full charge in cloudy conditions**
-  **41.6Ah lithium iron phosphate battery (LiFePo 4)**
